PODVOYAGER

Your Capsule, Your World

## COMPANY PROFILE

PodVoyager specializes in the design and manufacture of advanced Capsule Houses, offering modern, eco-friendly solutions for luxury accommodations, cultural tourism, and camping. Our capsules are designed for comfort, sustainability, and easy installation, providing a unique living experience in diverse environments.

With customizable options, sleek designs, and a focus on energy efficiency, PodVoyager capsules are ideal for resorts, glamping sites, and off-grid living. Our products are built to withstand various climates, ensuring long-lasting durability and minimal environmental impact.

Choose PodVoyager for innovative, high-quality space capsules that redefine the concept of portable living spaces.

# 01

## STRICT QUALITY CONTROL

We implement rigorous testing and quality inspection standards, with multiple inspection processes from raw material selection to final product delivery, ensuring each product meets industry-leading quality levels.

# 02

## COMPREHENSIVE TECHNICAL SUPPORT

We provide thorough technical support, adhering to strict industry regulations from design to construction, and are equipped with complete emergency facilities and preventive measures to ensure customer safety and peace of mind.

# 03

## EFFICIENT CUSTOMIZATION SERVICES

Beyond production capabilities, we offer end-to-end customization services, from product design to development, tailored to meet the unique needs of different regions and application scenarios.

**2011**

Compass Decor has been established.

**2019**

The company expands into the prefabricated housing industry.

**2020**

The "space capsule" concept is introduced.

**2021**

The second generation capsules are invented.

**2022**

The "C series" space capsule is developed.

**2023**

Committed to its roots, we drive innovation to build a global brand.

**2024**

Sales expand to more than 15 countries.

**2025**

The company will stick to its original aspirations, continue to innovate, and build a world-class brand.

Pitched roof

5.JOMOO Washbasin, Countertop and Smart Bathroom Mirror	15.Whole House Intelligent Voice Control System
6.Haier 60L Storage Water Heater	16.XGIMI Z7X Projector
7.Haier Integrated Bathroom Heater	17.Luxurious High Quality Sofas
8.JOMOO Shower Set	18.2*1.8m Double Bed with Mattress
9.Gree 3P Central Air-Conditioning	19.High Quality Durable Tables and Chairs
10.Class A Security Door	20.Balcony

## 01.WIND RESISTANCE

---

Designed to withstand up to Grade 9 wind pressure, the space capsule's reinforced columns and beams ensure stability and durability even under strong winds and vibrations.

## 02.CORROSION & INSECT PROTECTION

---

Constructed with high-grade, corrosion-resistant aluminum alloy, the exterior is treated to prevent insect infiltration, ensuring a long-lasting, low-maintenance solution.

## 03.FIRE & WATER RESISTANCE

---

Equipped with high-grade flame-retardant and waterproof materials, the structure effectively withstands fire risks and heavy rainfall, providing reliable protection in extreme weather.

---

## 04.THERMAL INSULATION

---

Advanced insulation materials maintain a comfortable interior temperature, reducing energy consumption and keeping occupants comfortable across various climates.

## 05.SOUND INSULATION

---

Built with sound-dampening materials, the capsule reduces external noise by up to 45 decibels, ensuring a peaceful and quiet living environment.

## 06.SECURITY & ANTI-FREEZE PROTECTION

---

Enhanced with secure locks and anti-freeze technology, the capsule offers year-round safety and functionality, protecting against theft and harsh winter conditions.

**PRODUCT INTERIOR DECORATION**

COOPERATION PARTNER

# 01

## TRANSPORTATION METHOD

To ensure safe transportation, each cabin is carefully wrapped in protective materials and covered with a durable, waterproof tarpaulin. Then a crane would be used to lift the house to the truck for delivery.

# 02

## RECEIVING GOODS

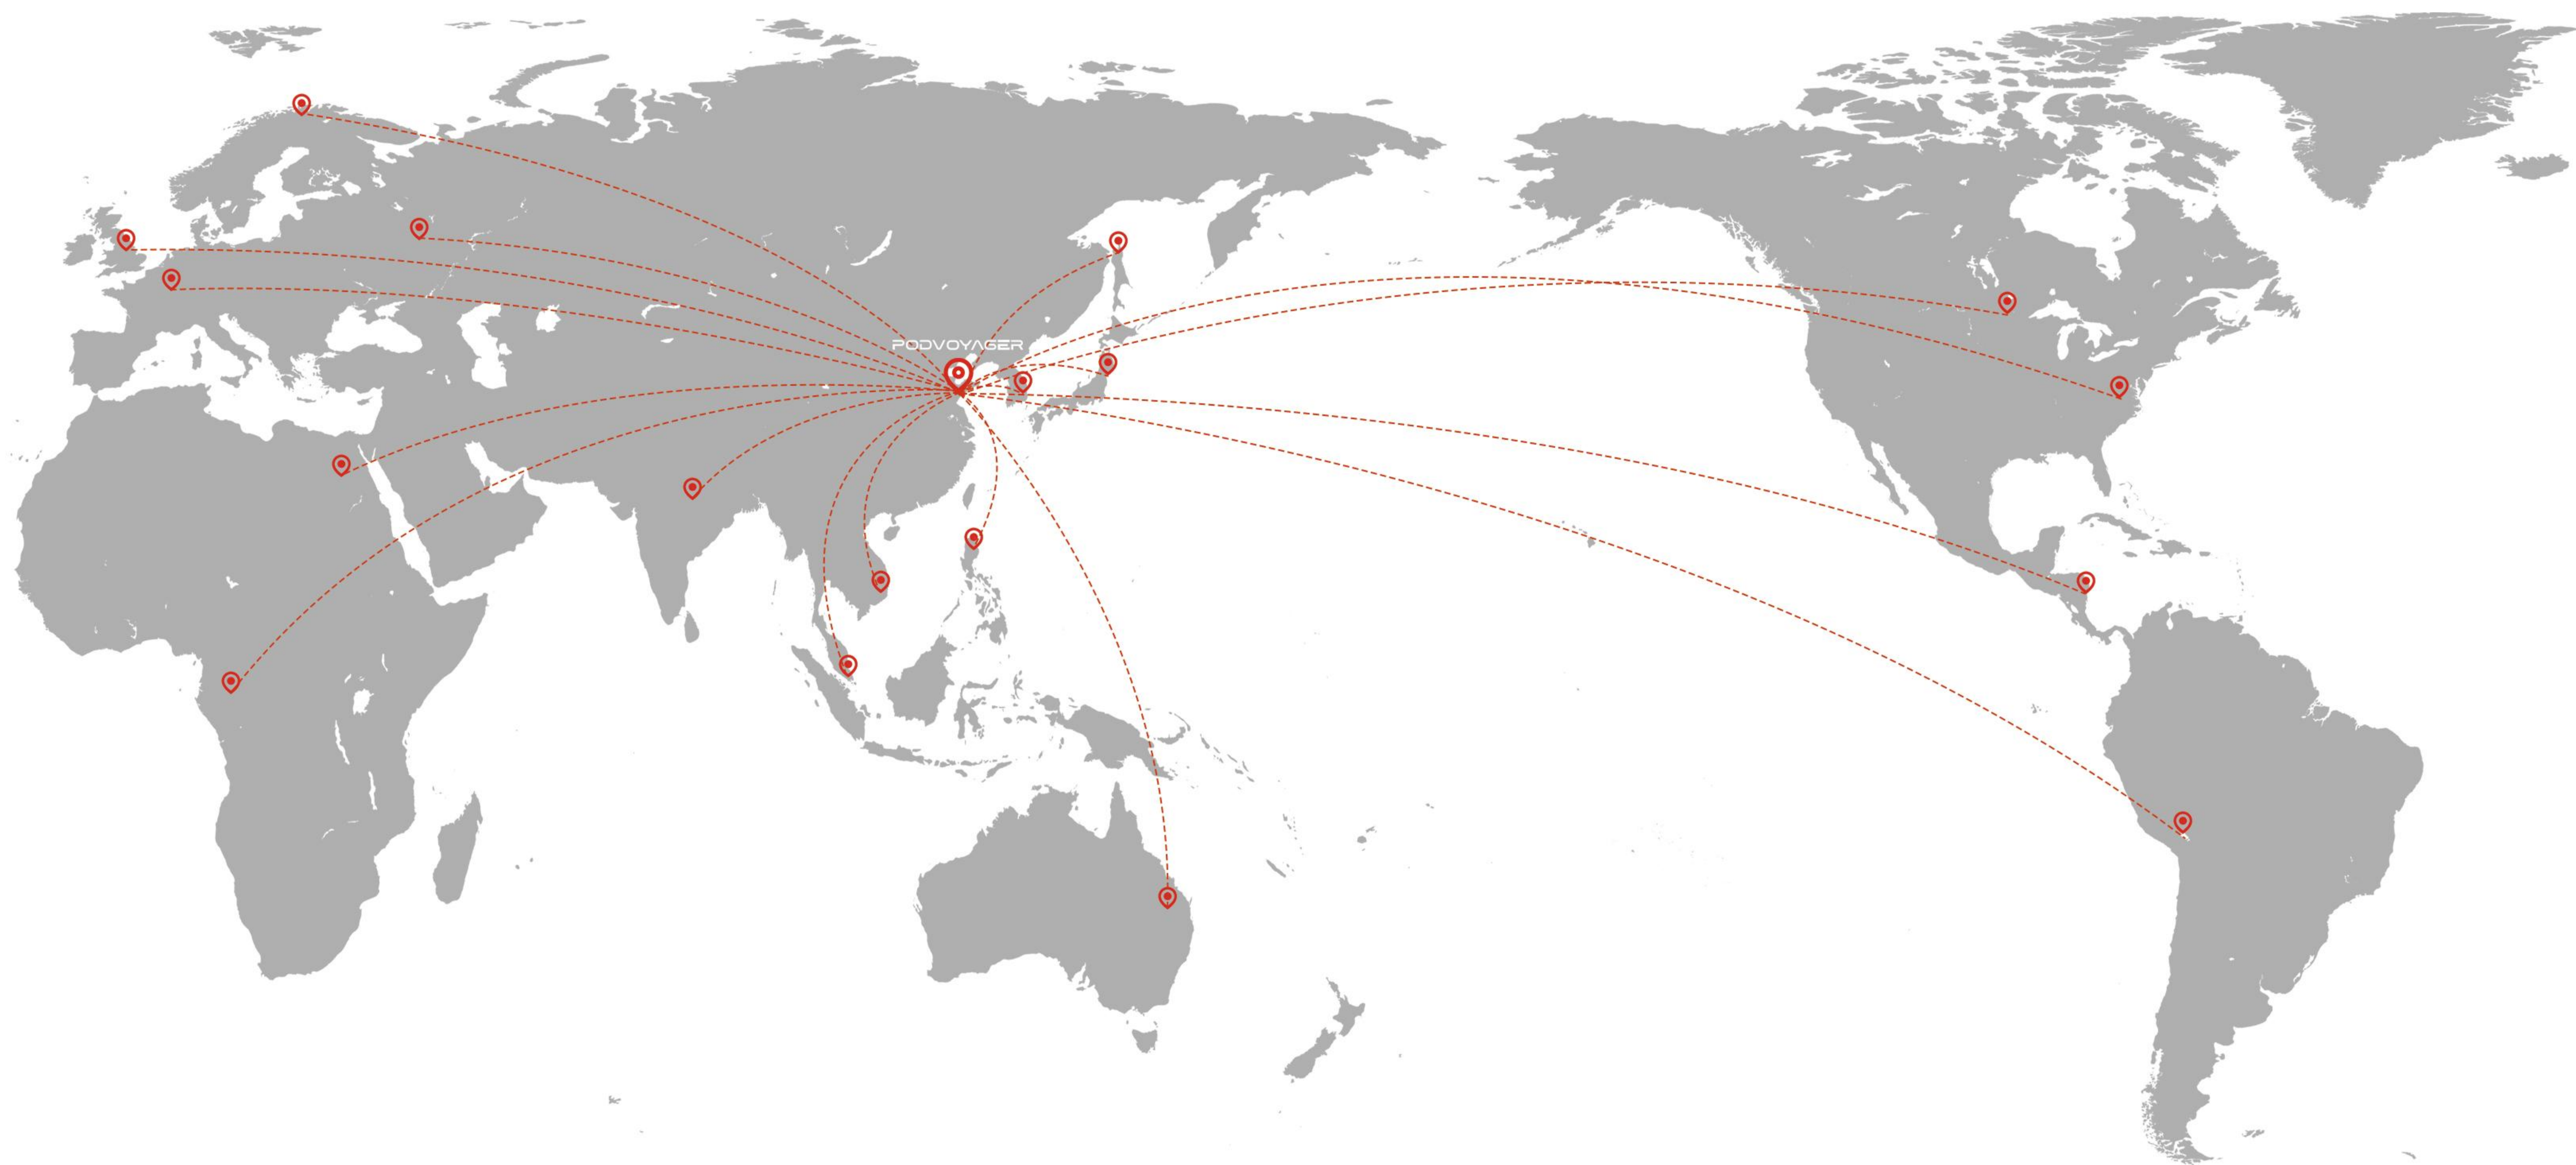

After the goods arrive at the site, the customer needs to contact the local crane service. Our technical team can arrive at the site in advance for guidance. Lifting weight of 5 to 10 tons, it is recommended to use not less than 25 tons of crane loading and unloading.

### Notice

Before installing the product, the customer must complete the on-site engineering of water supply, electricity supply, sewage pipelines and load-bearing foundation in accordance with our company's product standard basic water and electricity drawings. Under the guidance of our technicians, we accurately positioned it at the designed installation point. After connecting water and electricity, we completed the water and electricity test and submitted it to the customer for acceptance.
